## MESSAGE FROM THE DEPARTMENT

### MESSAGE FROM THE GOVERNOR

With its vast wilderness and thousands of miles of trails, Maine is a destination for both snowmobile riders and all-terrain vehicle riders like yourself who enjoy our great outdoors and wide-open spaces. Thanks for choosing Maine and for registering your snowmobile and/or your ATV here.

Your registrations provide funding to the Maine Department of Inland Fisheries and Wildlife and the Bureau of Parks and Lands to maintain trails and provide law enforcement to assure your ride is enjoyable and safe.

Landowners also play a vital role in our state's trail system. Without their generous consent to open up their land to the sport, there would be disconnects in the system. We are grateful for their willingness to partner with the State – it is this partnership that provides for some of the best snowmobile riding in the United States. We urge you to be respectful of both the public and private property you're riding on. Follow the rules, and thank landowners for being such strong supporters of the sport.

Thanks for being a responsible rider, and thanks for keeping Maine's trails safe for all levels of riders!

### MESSAGE FROM THE COMMISSIONER

Thank you for choosing to ride in Maine. Whether you choose to ride an ATV or a snowmobile, your most difficult choice just may be where to go on our many thousands of miles of trails in the state.

Maine's ATV and snowmobile trail systems provide access to some incredible places, and your travels are likely to create lasting memories. Many of the trails you travel will be on private land. Please respect the land and the landowner, as your actions can impact access for all of us.

Before you head out this season, please take a moment to familiarize yourself with this booklet and your machine. Safety is everyone's responsibility, and it begins with you. Please wear a helmet, and also let someone know where you're going and when you plan to return. Do not drink and drive.

I also hope that you consider joining an ATV or snowmobile club. These local clubs are the primary reason Maine has such a vast and diverse off-road trail network. Creation and maintenance of nearly all these trails is done by local clubs. Your support of these clubs ensures that riding in Maine will continue to be an enjoyable experience for all.

Thank you, and always ride safe and ride smart.

Chandler E. Woodcock  
*Commissioner*

Each year, Maine Game Wardens interact with thousands of outdoor enthusiasts from trappers and anglers to ATV and snowmobile riders. As registration trends continue to increase and trail systems both increase and improve for ATVs, the amount of inspections will likely increase proportionally.

Game Wardens are essentially the front door for the Bureau of Warden Service and often provide the only opportunity for sportspeople to engage in conversations with an IF&W employee. Inspections are critical to the mission of the Warden Service for both public relations and enforcement purposes. Both share an equally important role for the future of the bureau.

Game Wardens regularly inspect ATVs for safety and registration compliance. Wardens also stop motor vehicles at fish and wildlife checkpoints used for gathering statistics and enforcing fish and wildlife laws. In addition, Game Wardens have authority to stop motor vehicles for violations observed on Maine's highways.

A Game Warden may perform a stop of the above vehicles either by signaling you to stop with an obvious body gesture or with the use of emergency blue lights and/or siren. Game Wardens will make themselves known by identifying themselves while in uniform or by providing a badge or State law enforcement officer credential. When signaled to stop by a Game Warden please do the following:

- As soon as safely possible, bring your vehicle to a complete stop and allow the Game Warden to approach you. Failure to stop for a Game Warden may result in criminal prosecution, significant fines, and arrest.
- Be courteous and follow any directions given by the Game Warden pertaining to the recreational vehicle inspection. Your cooperation will expedite the inspection process and we will have you back on your way as quickly as possible.

Game Wardens prefer that each interaction with an outdoor enthusiast is a pleasant

experience. Please be polite and courteous. Take advantage of the opportunity to ask the Game Warden for advice or valuable tips.

ATV registrations are clearly trending toward higher numbers. In 2003 there was a peak of over 66,000 registrations in Maine. With the exception of that year, ATV registrations have shown a steady increase since 1998. The registration trend can likely be attributed to both the ability of four-season riding and the continuing effort to make and maintain good quality ATV designated trails. Additionally, ATV models have become very user specific. Some are now equipped with tracks for snow, camouflage for hunting, and two or four passenger versions for longer, more comfortable trail riding.

A significant amount of effort has been placed on ATV law enforcement by Maine Game Wardens. Landowner complaints coupled with increasing registrations created a situation in the late 1990's in which the Warden Service had to re-evaluate its law enforcement presence and approach regarding ATV's. Many Game Wardens now have ATV's issued to them to assist in patrol. Funding has been secured in recent years to pay for special enforcement details to help combat localized areas of complaints. These details allow Wardens to focus specifically on ATV issues and have become an important factor in reducing complaints from the public regarding ATV's.

Trail systems have continued to grow and landowner cooperation is becoming easier for

An ATV outfitted for a snowmobile trail, also known as a UTV (Utility-type vehicles).

ATV clubs to use and maintain trail systems in many areas of Maine. The trails have provided a completely new adventure for the ATV rider, allowing clear access and hundreds of miles of riding opportunities. Game Wardens continue to respond to ATV crashes that involve either property damage, personal injury or in some cases death. Wardens are responsible for

investigating ATV crashes to gather crash statistics and determine if violations of law have occurred that may have contributed to the crash. Drunk driving continues to be a contributing factor in many ATV rider fatalities. Always use good common sense, never operate beyond your abilities, and never drink and drive.

### §13002 – Collection by Commissioner.

The commissioner or agents of the commissioner shall act on behalf of the State Tax Assessor to collect the use tax due under Title 36, chapters 211 to 225 in respect to any watercraft, snowmobile or ATV for which an original registration is required under this Title at the time and place of registration of that watercraft, snowmobile or ATV.

All taxes collected pursuant to this section must be transmitted forthwith to the Treasurer of State and credited to the General Fund as undedicated revenue. The Legislature shall appropriate to the department in each fiscal year an amount equal to the administrative costs incurred by the department in collecting revenue under this section. Those administrative costs must be verified by the Department of Administrative and Financial Services.

For purposes of this section, “original registration” means any registration other than a renewal of registration by the same owner.

These sections do not preclude the State Tax Assessor’s collecting the tax due in respect to any watercraft, ATV or snowmobile in accordance with such other methods as are prescribed in Title 36 for the collection of the sales or use tax.

### §13005 – Certificates to be forwarded to State Tax Assessor.

An agent of the commissioner shall promptly forward all certificates submitted in accordance with section 13003 to the commissioner. The commissioner shall transmit all such certificates to the State Tax Assessor.

The operator or owner of an ATV impounded under this section may reclaim the ATV at any time subsequent to 24 hours after the issuance of the summons upon payment of the costs of impoundment to the enforcement agency impounding the ATV.

- (2) Registration is not required for an ATV operated by a commercial ski area for the purpose of packing snow or for rescue operations on the commercial ski area, unless the ATV is required to cross a public way during that operation.

- B. An all-terrain vehicle owner who transfers ownership or discontinues its use may, within 10 days from the date of transfer or discontinuance, apply to the commissioner for registration of another all-terrain vehicle. The fee for the transfer is \$4, and the registration is valid for the remainder of the registration year for which the previous all-terrain vehicle had been registered.
- C. When there is a change of ownership of an all-terrain vehicle for which a registration has previously been issued, the new owner shall apply for a new registration and shall pay the applicable fee under subsection 5.

8-B. **Notification of destroyed, abandoned, stolen, or permanently removed ATV.** The registrant shall notify the commissioner if an ATV is destroyed, abandoned, stolen, or permanently removed from the State.

NEW

9. **Display of registration numbers.** Each new ATV sold in the State must have a space 6 inches in width by 3 1/2 inches in height provided on the front and rear of the machine, as high above the tires as possible, for the vertical display of the registration numbers. A person may not operate an ATV that is required to be registered under this section unless registration numbers in the form of stickers are displayed in these spaces or as otherwise required by the department. A person may operate an ATV registered online without displaying a registration number until that person receives the registration certificate from the department or for 30 days after registering the ATV online, whichever occurs first.

A. A person who violates this subsection commits a civil violation for which a fine of not less than \$100 nor more than \$500 may be adjudged.

B. A person who violates this subsection after having been adjudicated as having committed 3 or more civil violations under this Part within the previous 5-year period commits a Class E crime.

10. **Training and education.** The department shall provide training and education relating to ATVs.

11. **Members of the U.S. Armed Forces permanently stationed in the State of Maine.** The following persons are eligible to register any snowmobile owned by them at the resident fee:

Registration fees for registrations

pursuant to this subsection must be allocated as if the person registering the snowmobile was a resident of the municipality in which the post, station or base is situated.

## §13157-A – Operation of ATVs

1-A. **Permission required.** A person may not operate an ATV on the land of another without the permission of the landowner or lessee. Permission is presumed on designated state approved ATV trails or in areas open to ATVs by landowner policy. A landowner may limit the use of a designated state-approved ATV trail on that landowner's property through agreements with the State or an ATV club to address environmental, public safety or management concerns. Written permission of the landowner or lessee is required on cropland or pastureland or in an orchard. As used in this subsection, "cropland" means acreage in tillage rotation, land being cropped and land in bush fruits, and "pastureland" means acreage devoted to the production of forage plants used for animal production. Nothing in this subsection may be construed to limit or expand a land owners property rights.

2. **Stop and identify requirement.** Persons operating ATVs upon the land of another shall stop and identify themselves upon the request of the landowner or the landowner's duly authorized representative.

3. **Operating ATV upon controlled access highway.** The following provisions govern the operation of ATVs on controlled access highways.

A. A person may not operate an ATV upon a controlled access highway or within the right-of-way limits of a controlled access highway, except that:

- (1) A properly registered ATV may cross controlled access highways by use of bridges over or roads under those highways or by use of roads crossing controlled access highways at grade; and
- (2) The Commissioner of Transportation may issue special permits for designated crossings of controlled access highways.

4. **Unlawfully operating ATV on snowmobile trail.** A person may not operate any 4-wheel-drive vehicle, dune buggy, all-terrain vehicle, motorcycle or any other motor vehicle, other than a snowmobile and appurtenant equipment, on snowmobile trails that are financed in whole or in part with funds from the Snowmobile Trail Fund, unless that use has been authorized by the landowner or the landowner's agent, or unless the use is necessitated by

an emergency involving safety of persons or property. Exception: ATV's with tracks, registered as snowmobile can be operated on a snowmobile trail.

## **NEW** 5. Repealed

**5-A. Operating a truck, pickup truck or passenger vehicle on an ATV trail.** A person may not operate a truck, pickup truck, or passenger vehicle on a designated ATV trail that is not on a gravel road system unless authorized by the landowner or landowner's agent, or in an emergency involving the safety of a person or property. For purposes of this law, "pickup truck" and "truck" have the same meaning as in Title 29-A section 101, subsections 55 and 88 and "passenger vehicle" means a self-propelled 4-wheel motor vehicle designed primarily to carry passengers on public roads.

**6. Operating ATV on public way.** Except as provided in this subsection, a person may not operate an ATV, other than an ATV registered with the Secretary of State under Title 29-A, on any portion of a public way maintained or used for the operation of conventional motor vehicles or on the sidewalks of any public way.

A. A properly registered ATV may be operated on a public way only the distance necessary, but in no case to exceed 500 yards, on the extreme right of the traveled way for the purpose of crossing, as directly as possible, a public way, bridge, overpass, underpass, sidewalk or culvert as long as that operation can be made safely and does not interfere with traffic approaching from either direction on the public way.

B. Repealed.

C. An ATV may be operated on any portion of a public way when the public way has been closed in accordance with Title 23, section 2953.

D. An ATV may be operated on a public way that is not maintained or used for the operation of conventional motor vehicles, except that operation on the left side of the way is prohibited during the hours from sunset to sunrise.

E. An ATV may be operated on streets and public ways during a period of emergency when the emergency has been so declared by a police agency having jurisdiction and when travel by conventional motor vehicles is not practicable.

F. An ATV may be operated on streets and public ways in special events of limited duration conducted according to a prearranged schedule under a permit from the governmental unit having jurisdiction.

G. An ATV may be operated on a public way on the extreme right of the traveled way by a law enforcement officer for the sole purpose of traveling between the place where the ATV is usually stored and an area to be patrolled by the law enforcement officer.

H. Notwithstanding paragraphs A to G, an ATV may be operated on the extreme right of a public way, or as directed by the appropriate governmental unit within the public way, of a municipality or an unorganized or unincorporated township if the appropriate governmental unit has designated the public way as an ATV-access route. An ATV must travel in the same direction as motor vehicle traffic on a public way designated as an ATV access route. A public way designated by an appropriate governmental unit as an ATV-access route must be posted conspicuously at regular intervals by that governmental unit with highly visible signs designating the ATV-access route. Before designating a public way as an ATV-access route, the appropriate governmental unit shall make appropriate determinations that ATV travel on the extreme right of the public way, or as directed by the appropriate governmental unit within the public way, may be conducted safely and will not interfere with vehicular traffic on the public way. For purposes of this paragraph, "appropriate governmental unit" means the Department of Transportation, county commissioners or municipal officers within their respective jurisdictions. The jurisdiction of each appropriate governmental unit over public ways pursuant to this paragraph is the same as its jurisdiction over the passage of vehicles on public ways pursuant to Title 29-A, section 2395. Municipal or county law enforcement officials having jurisdiction have primary enforcement authority over any route established under this paragraph.

**7. Failing to stop ATV before entering public way.** A person shall bring an ATV to a complete stop before entering a public way.

**8. Failing to yield right-of-way while operating ATV.** A person shall yield the right-of-way to all other types of vehicular traffic while operating an ATV on a public way.

**9. Crossing closed bridge, culvert, overpass or underpass with ATV.** A person may not cross with an ATV a bridge, culvert, overpass or underpass closed to ATVs by the Commissioner of Transportation pursuant to this subsection. The Commissioner of Transportation may, following

a public hearing, prohibit the crossing by an ATV of an individual bridge, culvert, overpass or underpass if the commissioner determines that that crossing or use of a public way is hazardous. Any bridge, culvert, overpass or underpass closed by the commissioner must be posted by appropriate notices.

**10. Reckless operating on ATV.** A person may not operate an ATV in such a way as to recklessly create a substantial risk of serious bodily injury to another person.

**11. Operating ATV to endanger.** A person may not operate an ATV so as to endanger any person or property.

**12. Operating ATV at greater than reasonable and prudent speed.** A person may not operate an ATV except at a reasonable and prudent speed for the existing conditions.

**13. Operating ATV without protective headgear.** Notwithstanding Title 29-A, section 2083, a person under 18 years of age may not operate an ATV without protective headgear.

**14. Carrying passenger on ATV without headgear.** Notwithstanding Title 29-A, section 2083, a person may not carry a passenger under 18 years of age on an ATV unless the passenger is wearing protective headgear.

- (2) Operate an ATV across the tracks of a railroad after having been forbidden to do so by the railroad owning the railroad right-of-way or by an agent of that railroad, either personally or by appropriate notices posted conspicuously along the railroad right-of-way.

# OPERATING UNDER THE INFLUENCE

**Prohibition.** Prohibitions against operating under the influence are as follows:

A person may not operate or attempt to operate a recreational vehicle:

- While under the influence of intoxicating liquor or drugs or a combination of liquor and drugs;
- If 21 years of age or older, while having 0.08% or more by weight of alcohol in that person's blood; or
- If less than 21 years of age, while having any amount of alcohol in the blood.

**Penalties.** A person who violates this section commits a Class D crime. In determining an appropriate sentence, refusal to submit to a chemical test must in every case be an aggravating factor. In the following cases the following minimum penalties apply.

**A.** In the case of a person having no previous convictions of a violation of subsection 1-A within the previous 6-year period, the fine may not be less than \$400. If that person was adjudicated within the previous 6-year period for failure to comply with the duty to submit to and complete a blood-alcohol test under section 10702, subsection 1, the fine may not be less than \$500. A conviction under this paragraph must include a period of incarceration of not less than 48 hours, none of which may be suspended, when the person:

- Was tested as having a blood-alcohol level of 0.15% or more;
- Failed or refused to stop upon request or signal of an officer in uniform, pursuant to section 6953 or 10651, during the operation that resulted in prosecution for operating under the influence or with a blood-alcohol level of 0.08% or more; or

When a blood test is required, the test may be administered by a physician of the accused's choice, at the request of the accused and if reasonably available. The law enforcement officer may determine which type of breath test, as described in subsection 5 will be administered. (For more detailed information see Title 12, chapter 911, subsection 10703.)

Do you need to take a safety course to operate an ATV? Maine law requires anyone under 16 years of age to complete a course prior to operating on land other than that owned or leased by their parent or guardian or on which they live. These courses are made available in your area by volunteer instructors certified by the Maine Department of Inland Fisheries and Wildlife. Pre-registration is requested and/or required. Courses will include 6 hours of instruction. Sponsors include school districts, sports clubs, civic groups, and others. Courses will be scheduled based on instructor availability.

## ATV SAFETY INFORMATION

If you have a youngster who is about to ride an ATV, there are special considerations that you should keep in mind. Although a child may be the recommended age to ride a particular size ATV, not all youngsters have the strength, skills, or judgment needed to operate an ATV. You should supervise your youngster's operation of the ATV at all times, and should permit continued use only if you determine that your youngster has the ability and judgment to operate the ATV safely. You should also read Parents, Youngsters and ATVs, available from ASI.

For more information about ATV Safety, call the Consumer Product Safety Commission at 1-800-638-2772 or the ATV Distributors' Safety Hotline at 1-800-852-5344.

Remember that riders under 16 years of age should be supervised by an adult. In addition, follow the ATV Model Size/Minimum Age information listed below. Do not ride an ATV that is not recommended for your age group.

ATV Model Size .....	Minimum Age
Under 70cc .....	6 years and older
70 - 90cc .....	12 years and older
Over 90cc .....	16 years and older

Be Cautious... ATVs are not toys. Serious injury can result from improper use of ATVs, but with preparation and practice, you can safely develop and expand your riding skills. Riding ATVs can be an enjoyable form of outdoor recreation when done properly.

In addition to the information provided in this booklet, it is important to carefully read and

follow the instructions and warnings contained in the ATV owner's manual and labels. ATVs handle differently from other vehicles, such as motorcycles and cars. Proper instruction and practice are important. The ATV Rider Course, a half-day hands-on training program, is available nationwide. Anyone who purchased a new ATV after December 30, 1986, and everyone in the purchaser's immediate family who is in the recommended age group for the ATV purchased, is entitled to take a training course at no additional charge. Others can take the training course for a small fee. Individuals who purchased a new ATV after April 28, 1988, will be entitled to a \$50.00 incentive check upon completion of the course. Limit one incentive per ATV purchased. Ask an authorized ATV dealer for the details or call 1-800-887-2887 for training information. We recommend you take advantage of the free training program, and perform the exercises in this booklet.

Each year, Maine Game Wardens interact with thousands of outdoor enthusiasts from hunters and anglers to ATV and snowmobile riders. An average of 135,000 inspections are made every year. Inspection numbers sometimes fluctuate

Wardens are responsible for more than 13,500 miles of trails throughout the state.

depending upon weather conditions and special enforcement efforts. Inspections are often proportionally related to snow depths found across the state each year. Northern and Western portions of Maine consistently receive moderate amounts of snow, often totaling well over 150 inches each year. When southern Maine finds itself in a light snow year, registrations will often be fewer as well. Non-residents from all over New England choose Maine as their favorite place to ride. Maine offers over 13,500 miles of groomed trails that interconnect to nearly all corners of the State. Registration totals have fluctuated between a low of 75,235 in 2005 to a high of 107,285 in 2002. That is a difference of over 32,000 registrations in just 3 years.

Yearly snowmobile crash totals can fluctuate dramatically depending upon snow depth. To help reduce the amount of snowmobile crashes and provide a safe sport for approximately 100,000 snowmobiling enthusiasts, Maine Game Wardens make snowmobile law enforcement one of their highest priorities during the winter, dedicating thousands of hours toward law enforcement and education. Wardens work from their snowmobiles, at trail crossings, and at snowmobile club meetings to help ensure snowmobile law compliance.

Game Wardens are essentially the front door for the Bureau of Warden Service and often provide the only opportunity for sportspeople to engage in conversations with an IF&W employee. Inspections are critical to the mission

Maine's Game Wardens conduct a registration and safety check on one of the state's trails. Maine Wardens make over 135,000 inspections each year.

**“ Maine Game Wardens make snowmobile law enforcement one of their highest priorities during the winter, dedicating thousands of hours toward law enforcement and education. ”**

of the Warden Service for both public relations and enforcement purposes. Both share an equally important role for the future of the bureau. Game Wardens regularly inspect snowmobiles for safety and registration compliance. Wardens also stop vehicles at fish and wildlife checkpoints used for gathering statistics and enforcing fish and wildlife laws. In addition, Game Wardens have authority to stop motor vehicles for violations observed on Maine's highways.

A Game Warden may perform a stop of the above vehicles either by signaling you to stop with an obvious body gesture or with the use of emergency blue lights and/or siren. Game Wardens will make themselves known by identifying themselves while in uniform or by providing a badge or State law enforcement officer credential. When signaled to stop by a Game Warden please do as follows:

- As soon as safely possible, bring your snowmobile to a complete stop and allow the Game Warden to approach you. Failure to stop for a Game Warden may result in criminal prosecution, significant fines, and arrest.
- Be courteous and follow any directions given by the Game Warden pertaining to the inspection. Your cooperation will expedite the inspection process and we will have you back on your way as quickly as possible.

Game Wardens prefer that each interaction with an outdoor enthusiast is a pleasant experience. Please be polite and courteous. By promptly complying with all requests as directed by the Game Warden, you can help ensure a safe, pleasant, and productive experience. Take advantage of the opportunity to ask the Game Warden for advice or valuable tips.

Landowner relations are essential to Maine's snowmobiling industry. A substantial portion of Maine's snowmobile trail system is located on privately owned land. Without landowner support and generosity, our trail system would be in serious jeopardy. Treat land with respect, operate at prudent speeds, and maintain the original exhaust system on your snowmobile; loud exhausts close trails!

Game Wardens continue to respond to snowmobile crashes that involve either property damage, personal injury or in some cases death. Wardens are responsible for investigating snowmobile crashes to gather statistics and determine if violations of law have occurred that may have contributed to the crash. Drunk driving continues to be a contributing factor in many snowmobile related crashes. Always use good common sense, never operate beyond your abilities, tell someone where you plan to ride and when you will return, and never drink and drive.

## **§13106-A – Operation of snowmobile**

- 1. No permission given.** This chapter does not give license or permission to cross or go on the property of another.
- 2. Stop and identify requirement.** Persons operating a snowmobile upon the land of another shall stop and identify themselves upon the request of the landowner or the landowner's duly authorized representative.
- 3. Operating snowmobile upon controlled access highway.** Except as provided in paragraph A, a person may not operate a snowmobile upon a controlled access highway or within the right-of-way limits of a controlled access highway.
  - A. A person may operate a snowmobile upon a controlled access highway or within the right-of-way limits of a controlled access highway in accordance with this paragraph.
    - (1) A person on a properly registered snowmobile may cross controlled access highways by use of bridges over or roads under those highways, or by use of roads crossing controlled access highways at grade.
    - (2) The Commissioner of Transportation may issue special permits for designated crossings of controlled access highways.
- 4. Unlawfully operating snowmobile on plowed road.** A person may not operate a snowmobile upon any plowed private road, or public road plowed privately without public compensation, after having been forbidden to do so by the owner thereof, the owner's agent or a municipal official, either personally or by appropriate notices posted conspicuously on that road.

- 5. Operating snowmobile on public way.** Except as provided in subsection 4 and this subsection, a person may not operate a snowmobile upon the main traveled portion, the sidewalks or the plowed snowbanks of a public way.

- A. A properly registered snowmobile may be operated on a public way only the distance necessary, but in no case to exceed 500 yards, on the extreme right of the traveled way for the purpose of crossing, as directly as possible, a public way, sidewalk or culvert.
- B. A properly registered snowmobile may be operated on a public way only the distance necessary, but in no case to exceed 500 yards, on the extreme right of the traveled way for the sole purpose of crossing, as directly as possible, a bridge, overpass or underpass, provided that that operation can be made in safety and that it does not interfere with vehicular traffic approaching from either direction on the public way.
- C. A snowmobile may be operated on any portion of a public way when the public way has been closed in accordance with Title 23, section 2953.
- D. If the main traveled portion of a public way is publicly plowed and utilized by conventional motor vehicles, a snowmobile may be operated only on that portion of the way not maintained or utilized for the operation of conventional motor vehicles, except that operation on the left side of the way is prohibited during the hours from sunset to sunrise on the portion of the way not maintained or utilized for the operation of conventional motor vehicles. This paragraph does not apply to a snowmobile operated by a public utility regulated by the Public Utilities Commission while being operated in the course of the utility's corporate function, so that public utilities may effectively and speedily carry out their obligations to the public.
- E. A snowmobile may be operated on streets and public ways during a period of emergency when the emergency has been so declared by a police agency having jurisdiction and when travel by conventional motor vehicles is not practicable. - F. A snowmobile may be operated on streets and public ways in special snowmobile events of limited duration conducted according to a prearranged schedule and under a permit from the governmental unit having jurisdiction.
- G. Notwithstanding paragraphs A to F, a snowmobile may be operated on the extreme right of a public way within the built-up portion of a municipality or unorganized or unincorporated township if the appropriate governmental unit has designated the public way as a snowmobile-access route for the purpose of allowing snowmobiles access to places of business. A public way designated by an appropriate governmental unit as a snowmobile-access route must be posted conspicuously at regular intervals by that governmental unit with highly visible signs designating the snowmobile-access route. Before designating a public way as a snowmobile-access route, the appropriate governmental unit shall make appropriate determinations that snowmobile travel on the extreme right of the public way may be conducted safely and will not interfere with vehicular traffic on the public way. For purposes of this paragraph, "appropriate governmental unit" means the Department of Transportation, county commissioners or municipal officers within their respective jurisdictions. The jurisdiction of each appropriate governmental unit over public ways pursuant to this paragraph is the same as its jurisdiction over the passage of vehicles on public ways pursuant to Title 29-A, section 2395. Municipal or county law enforcement officials having jurisdiction have primary enforcement authority over any route established under this paragraph.

subsection applies to the crossing with a snowmobile of a bridge, culvert, overpass or underpass closed to snowmobiles by the Commissioner of Transportation.

A. A person may not cross with a snowmobile a bridge, culvert, overpass or underpass closed to snowmobiles by the Commissioner of Transportation.

(1) The Commissioner of Transportation may, following a public hearing, prohibit the crossing of an individual bridge, culvert, overpass or underpass if the commissioner determines that that crossing or use of the public way is hazardous.

(2) Any bridge, culvert, overpass or underpass closed by the Commissioner of Transportation must be posted by appropriate notices.

9. **Reckless operation of a snowmobile.** A person may not operate a snowmobile in such a way as to recklessly create a substantial risk of serious bodily injury to another person.

10. **Operating a snowmobile to endanger.** A person may not operate a snowmobile so as to endanger any person or property by:

A. Operating the snowmobile except at a reasonable and prudent speed for the existing conditions, including when approaching and crossing an intersection or railway grade crossing, when approaching and taking a curve, when approaching a hill crest, when traveling upon any narrow or winding trail and when a special hazard exists with respect to pedestrians, skiers or other traffic by reason of weather or trail conditions; or

B. Operating the snowmobile in a manner that fails to control its speed at all times as necessary to avoid colliding with any person, vehicle, snowmobile or other object on or adjacent to the snowmobile trail.

11. **Operating a snowmobile at greater than reasonable and prudent speed.** A person may not operate a snowmobile except at a reasonable and prudent speed for the existing conditions.

## WHAT WE DO WHEN NO ONE IS WATCHING

The Maine Department of Inland Fisheries and Wildlife encourages all land users to voluntarily seek permission whenever possible. In turn, the Outdoor Partners landowner relations program would ask all landowners to consider using the courtesy card system.

Land user's respect for the property rights of the landowner will lead to positive and cooperative relations—and a positive, productive experience. It's not only courtesy — it's the right thing to do.

For more information call the Landowner Relations Coordinator, Rick Laflamme, at (207) 287-5240 or log onto [www.mefishwildlife.com](http://www.mefishwildlife.com)

## ATV & SNOWMOBILE SAFETY

Taking a ride on an ATV, UTV or snowmobile is a great way to be active and enjoy the beautiful Maine outdoors. Following safety precautions, rules and common sense are necessary ways to ensure your ride on one of these machines is as safe as it is fun.

ATVs and UTVs are intended for off-road use and may be difficult to control on pavement and other surfaces. Different ATV models handle differently so it's important to familiarize yourself with each machine you ride by reading the owner's manual and following the safety, maintenance and operational guidelines.

Because ATVs can cause serious injuries if used improperly, riders should also know their own abilities and limitations and never overdrive their machine just to keep up with others or impress someone.

If you have a youngster who is going to operate or ride on an ATV, they should be supervised at all times by an adult. Attending a safety course will provide the youngster with a wealth of knowledge. While a child may be the recommended age to operate an ATV, the supervising adult needs to take the youngster's strength, skills and judgment into consideration when deciding if they are fit to ride.

Having a pre-ride safety checklist is a good idea for all riders and includes checking the mechanical condition of the machine and making sure you have spare parts, survival items and personal items needed for safety and comfort.

Riders should also leave a trip plan with someone else that lists their destination, travel times, contact information and anything else that could aid in finding a rider who gets lost or injured.

When it comes to snowmobiling, the safest rule is to never cross lakes or rivers, since doing so puts you at risk of plunging through the ice. If you decide to snowmobile on ice, make sure the ice is safely frozen and only trust your own judgment.

Drowning is a leading cause of snowmobile fatalities so buying a buoyant snowmobile suit could be a life-saving decision. If you do go through the ice, your helmet and snowmobile suit, even if it's non-buoyant, may keep you afloat for several minutes. Try sliding back onto the ice, using anything sharp to dig in for pull. Kicking your feet like a seal can help propel you onto the ice.

If the ice keeps breaking, continue moving toward the shore or the direction from which you came. Don't remove your gloves or mitts. Once on the ice, you should roll away from the hole, making sure not to stand up until you are well away from it.

Snowmobile operators should also always know the area they ride in, ride at safe speeds, signal their riding intentions, watch for other snowmobilers and never operate under the influence of drugs or alcohol.

Always remember: ATVs, UTVs and snowmobiles are not toys, so taking these precautions can mean the difference between an enjoyable time and a dangerous one.

5. **No duty created.** Nothing in this section creates a duty of care or ground of liability for injury to a person or property.

6. **Costs and fees.** The court shall award any direct legal costs, including reasonable attorney's fees, to an owner, lessee, manager, holder of an easement or occupant who is found not to be liable for injury to a person or property pursuant to this section.

Thin and crispy, way to risky.”**

The ice traveler should look for bluish ice that is at least 4 to 6 inches thick, in order to support people and their gear. Even if the weather has been below freezing for several days, don't guess about ice thickness. Check ice in several places. Use an auger, spud, or axe to make a test hole beginning at shore and continuing as you go out.

If ice at the shoreline is cracked or squishy, stay off. Don't go on the ice during thaws. Watch out for thin, clear, or honeycomb-shaped ice. Dark snow and dark ice are other signs of weak spots.

Choose small bodies of water. Rivers and lakes are prone to wind and wave action, which can break ice up quickly. Avoid areas with currents, around bridges, and pressure ridges.

## WHAT IF I BREAK THROUGH THE ICE?

- If you break through the ice, don't panic.
- Don't try to climb out, you'll probably break through the ice again.
- Lay both arms on the unbroken ice and kick hard. This will help lift your body onto the ice. Roll to safety.
- To help someone who has fallen in, lie down flat and reach with a branch, plank, or rope; or form a human chain. Don't stand. After securing the victim, wiggle backwards to the solid ice.
- The victim may need treatment of hypothermia (cold exposure), artificial respiration, or CPR.
- “If your feet are cold, put on your hat.” That may seem odd, but it's good advice. Most body heat is lost through the head and neck. So wear a hat, cover your face and neck.
- Dress in layers. Wool, silk, and certain synthetics are best; they'll keep you warm even if they're wet. Insulated, waterproof boots, gloves, and a windbreaker are very important. Take extra clothing.

## ICE THICKNESS

In the wintertime, outdoor enthusiasts frequently need to know how thick the ice is and whether it is safe to walk across it. The American Pulpwood Association has published a handy reference chart that gives a good rule-of-thumb for pond and lake ice thickness.

This table is for clear, blue ice on lakes. Reduce the strength values by 15% for clear blue river ice. Slush ice is only one-half the strength of blue ice. This table does not apply for parked loads.

ICE THICKNESS (IN INCHES)	PERMISSIBLE LOAD ON CLEAR, BLUE LAKE ICE. (REDUCE STRENGTH VALUES FOR OTHER TYPES OF ICE.)
2"	One person on foot
3"	Group of people (walking single file)
7½"	Passenger Car (2 ton gross)
8"	Light Truck (2½ ton gross)
10"	Medium Truck (3½ ton gross)
12"	Heavy Truck (7–8 ton gross)
15"	Heavy Truck (10 ton gross)
20"	25 tons
25"	45 tons
30"	70 tons
36"	110 tons
